LATEST NEWS

techie question

Hello all, Some fine person on here may be able to help with my techie difficulties, I have a Korg R3 and would like to know if anyone has created a control template for using it as a controller for Reason 3, or is there one available on the net? I have tried the remote mapping detailed within the reason help files but cant seem to grasp some of the instructions.

charts

Well thats a nice surprise, I am currently at no.2 in the weeks charts with my latest offering, A Gathering of Machines, so a few members/visitors obviously like it. Makes me feel quite proud and thanks all for giving it a listen 😊
