

Architecture

Architecture is currently a one man solo project. Architectures Previous projects include The Beat Junkey, Dark Void, Horrid Job, and his other bands such as Harmonic Dissonance and Hidden Village of Sound. Been working on music over the last 10 years, with very humble beginnings, and always learning as I go on, I got a lot to learn still. Going back to analog to find the sounds of tomorrow, and making sense of the past as well, is my goal. While at one time I strived to do IDM and what not, I have found that it really doesnt have the big audience that I thought it would, but I definitely throw it into my productions every so often. In Loving Memory of Minister of Sound, well miss you. RIP. All new recordings are done in Ableton Live, Sonar LE, Reason, Rebirth, and Analog Reel to Reel.
