

» Toltek Industries

BAND STORY

"

TolTek Industries is the brainchild of Robert W Skidmore, (AKA Phineous).

TolTek is the focal point to a scifi based universe created by Phineous as a setting for creative exploration into music, visual arts, fictional writing, and web design.

The goal is to fuse all the above into a spacerock opera designed for live application and recorded works.

The theme is space (inter and outer), alien civilizations, elder gods, lovecraftian concepts, human willpower (its nature and lack of), artificial intelligence, andriods and interfaces, Horror, scifi, fantasy, psychology, and escapism.

TolTek's sound is dedicated to synth infused spacerock and audio soundscapes, and may contain anyone of the following, electric guitars and basses, drummachines, rants, screams, spokenword dubs (vocoded or highly effected), softsynths and hardware synths (rack and outboard), organic nature sounds, and samples of all of the above.

Musically it varies from psychedelic heavyrock to primitive electro to pure experimental (you wont find much to dance to here).

TolTek follows a DIY ethic and has plans to release various forms of media via the web.

Thank you for your time and enjoy.
